TACTICAL CENTERFIRE RIFLE

Tactical® TRU - Lite Open Tip Match

Federal Premium® Law Enforcement works hard to provide the best tools for our law enforcement personnel. The new Lite Open Tip Match (LOTM) combines unprecedented limited-penetration performance and match-grade accuracy for a distinct advantage in the most tense situations. These new loads feature all the characteristics that make Federal's Tactical TRU line so special: mil-spec brass, low-flash powders and outstanding accuracy for today's full and semi-auto rifles. These 43 and 50-gr 5.56x45mm offerings reduce the risk of collateral damage and deliver impressive terminal performance.

Features & Benefits

- Impressive accuracy
- Limited penetration
- Superior terminal performance
- Explosive expansion
- Unprecedented Open Tip Match performance

TRAINING CENTERFIRE RIFLE

BallistiClean® RHT® Lite Open Tip Match

Accuracy shouldn't be second rate at the range. The BallistiClean RHT Lite Open Tip Match is the first lead-free training bullet to be accurate out to and past 200 yards. It also functions in various semi and full-auto guns. The entire load is lead-free, meaning it is ideal for indoor training. Law enforcement personnel can now train realistically and lead-free with this new BallistiClean RHT offering.

Features & Benefits

- Impressive accuracy
- Reliable function in semi and full-auto firearms
- Completely lead-free
- Great for indoor ranges
- Same ballistics as Tactical TRU offerings

TACTICAL CENTERFIRE RIFLE

Tactical® TRU® - Soft Point

Today's law enforcement officers need ammunition specifically designed for use in semi-automatic rifles, "urban rifles", such as variants of the M-16 or AR-15. Federal Tactical® TRU® ammunition is engineered using mil-quality specifications for easy functioning in these firearms. It is also made using mil-spec brass and low-flash powders. This line carries a full lineup of bullets—from fragmenting designs, to deeper-penetrating, barrier-defeating options. New this year, Federal adds a controlled-expansion .308 168-gr soft point.

Features & Benefits

- Mil-spec brass
- Reliable expansion
- Low-flash powders
- Accurate

TACTICAL SHOTSHELL

Tactical® Door Breach Slug

Federal Premium® Law Enforcement's new Tactical Door Breach allows quick entry and minimizes collateral damage. This load uses a frangible 1-3/8 oz slug in a 2-3/4" 12-gauge configuration to defeat wood doors effectively. Law enforcement entry teams can use this product in most situations. Because the slug breaks up on impact, the risk for collateral damage is very minimal.

Features & Benefits

- Allows quick, safe entry
- Frangible slug
- No splash back for shooter
- Limits collateral damage
- Brown hull for easy identification

TRAINING PISTOL

BallistiClean® RHT® Pistol

This year Federal Premium® Law Enforcement expands its specially-designed pistol training ammunition with a 125-gr 40 S&W and a 98-gr 9mm Luger option. BallistiClean® RHT® features frangible RHT bullets that break up immediately on contact with metal targets. These loads greatly reduce ricochet and backsplash danger. They are also easily identified by Federal's NT (non-toxic) head stamp to eliminate confusion between training and duty rounds.

Features & Benefits

- Bullets break up on impact with hard surfaces
- Ideal for metal targets
- Easy to identify
- Lead-free
